PH-201 Digital Humidity Meter

The **Model PH-201** is an economical and accurate Digital Humidity Meter with selectable engineering units. This handheld unit is used to measure air relative humidity to confirm output air quality from air dryers and also for troubleshooting during air dryer maintenance. The large LCD digital display is a plus for underground humidity readings while flash testing splice cases.

The convenient size of the PH-201 allows the craftsperson to treat this indispensable tool as a pocket or tool pouch item.

Specifications:

Large, easy to read 4-Digit LCD Display

Pocket size, weight 2.6 oz.

Units- Relative Humidity, Dew point, Wet Bulb

Temperature, degrees Celsius or Fahrenheit

Relative Humidity Range 0.1% to 100%

Battery – long life (500 hours) 9V alkaline included,

Auto Shutoff

Connection – quick connect air chuck with flexible air tube

Foam lined plastic storage case provided with instructions
